# PRAMOD THAPA

FRONT END DEVELOPER

I am an inventor, helping others to fix their stuff and inventing new things for myself is my passion, and I love to tinker with things. This is how I got into engineering, I have completed my Diploma and B.E. and looking for an opportunity to convert my passion to a career. I love coding and for the last past year, I have been focusing upon the Front End part of an application, and I would appreciate it if you may give me an opportunity to join your tech team and expand my knowledge.

## Experience
### NGO Website:
I had built a fully functional mobile responsive website for NGOs from scratch using Next.js, Strapi, MongoDB, and AWS. While doing this project I learn about project deployment and configuration on the web and found that it's not simple as configuring on the local computer.

### Tech Stack:
NextJs(frontend),Strapi(headless-Cms),mongodb(data-storage),Aws S3(mediaStorage)

https://github.com/PRAKUS/Whocares    https://whocares.vercel.app/

### Amazon Clone:
I try to clone the amazon shopping website. In which I primarily learn about global state management. In which I use useReduce hooks with Context API.

### Tech Stack:
React Js.

https://github.com/PRAKUS/amazon-clone

## Education

### Junior Schooling

I have done my junior schooling from ST. George's Higher Secondary School,Pedong which is governed by the West Bengal State Board, and passes with Grade"B".

### Diploma in Engineering

Then I pursuit my Diploma Engineering Course in Mechatronics from Advance Technical Traning Center, Bardang East Sikkim, and secured Grade A with 7 CGPA

### Bachelor in Engineering

After my Diploma, I did my higher studies i.e Bachelor in Computer Science and Engineering from Excel Engineering College,Namakkal Tamil Nadu which is affiliated with Anna University Chennai, and Secure Second Position with 6.3 CGPA.

## Skill Sets

### Programming Langauges:

• HTML,Sass/CSS
• PHP,C++,Javascript(ES6),
•MySQL,MongoDB

### Libraries & Frameworks

• React,Nextjs,Bootstrap,
  ReactBootstrap
• Express.js
• Strapi
• GIT
• Linux

### Desigining Tools

• Photoshop,Illustrator
• Adobe XD, Figma
